

Artist Name: Devin Lester

↳ Hello! and welcome! I hope that my pieces bring Joy and Inspiration, this year has been a little different for me artistically because this year, I have been more focused on Music & Song writing as well as poetry (I recently learned how to play guitar). As summer turns to fall, I have to get back to my first love and best of talents; Drawing! Drawing makes me happy and sometimes frustrates me as well, in most of my artwork I tend to express my spirituality, through the use of occult ideas and symbology - which is often linked through my heritage and I love that so much that I want to share it. I also love Tattoo designs and I hope, upon release to work towards becoming a Tattooist and having my own shop, I might, one of these days, include my Tattoo designs, but only ones that could also pass as a wall piece that could hang in someone's house (I'm not really sure what people do with the art they buy, so I'm really making an assumption here). Anyway, I hope you enjoy my Art and enjoy the whole P.C.A.P exhibition 😊 ↳
