

Artist Name: Kaleb Rudical

Hello, my artwork was inspired by the Fight through life that at some point every one has to go through, We Fight until the heart line is flat. I create art because I enjoy the smiles that come when people get the final projects. The process for creating this art was emotional it reminds me to never give up to continue to Fight it shows others that there's always hope. My hope is that this will inspire people to reach for their goals and dreams, no matter what a persons struggle may be to never give up! Thanks for your time.
