

Artist Statement — 30th Annual Exhibition of Artists in Michigan Prisons

Artist Name: _____

A one of a kind purse that has been all spur of the moment design. I used a template to begin with but altered it significantly to produce it as a one of a kind. All work is by hand with hand tools.

Both drawings are of an idea to place beautiful women into the astrological representations of the respective signs. The "Capricorn Queen" was completely drawn from imagination. The "Gemini Twins" were of a woman found in an urban magazine. Both were drawn with mechanical pencil.
