

Artist Name: Philip Nowicki IV

Hello, I am happy it is finally that time of Year. This is my second time attending PCAP'S and I have been looking forward to it since the last one. I have been experimenting with different styles and techniques to see what I enjoy most. I have found that I enjoy landscapes and wildlife the most. Or Anything with Nature. Being an avid outdoorsman who enjoys hunting & fishing, I feel this style connects best with who I am as a person. It shows the things I can't wait to do again, and Places I would like to visit. My most recent Painting of the Rainbow trout was created by AI. I asked it to generate a reference Picture of an under-water scene with rocks, logs, a stump, and a trout chasing a lure. AI is new for me and it was interesting to see if what it came up with was what I had in mind. I am going to continue Painting fish & other wildlife in the future. I am at Peace when creating Artwork with thoughts of what the future holds. I hope You have enjoyed my Artwork and it connected with You in Some way.
