

Artist Name: USNDN-Wolf

The work I'm submitting is in a wide range of applications and thought process. ~~In~~ For the most part my wilderness pictures are of places I seen when I was out as a free man, and when I paint and/or draw them they tend to transport me back to those times with the memory of better times and family and friends - My "True Mount Rushmore" is what I feel should be the true Forefathers of our Country as being Native I can't really relate to Washington, Lincoln etc. But Sitting Bull, Geronimo, and Chief Joseph I grew up hearing about about!

Concave Dreams/Nightmares - is about almost everything one thinks about while incarcerated from belief systems to wild dreams and wishful thinking. To Hope for better things to come - I've been drawing off and on since I was 8 years old, self taught. It relaxes me, I've tried all types of mediums and now I am working with graphite and watercolors. Next year you'll see more of my work I'm sure -

Thank you all for your  
interests in all our work
