

Artist Name: Jeff Hoagline

Art for me has become an escape of the norm. I used to just use it as a means for funds but since have found that I can tell a story through my work. My primary reason for art work now is to bring joy or a smile to someone through my art work. I chose this years Art to express the MDAC and how Mich has no hope for its prisons whether or not we do the right thing we are mostly just left to the prison yard to learn and grow. We must close the fork in the road we want to go towards.

The old Trail

The Second place ~~is~~ is my love for drawing animals there's something special about getting lost in Art work that Captivates me. I Mostly begin Charcoal drawings of Animals because that seemed to be what most people liked. So I kept at it now we grown to enjoy them myself.

Lastly I just want to thank everyone for giving us a voice something we normally don't have or have but goes unheard. If you purchased one of my pieces Thank you the funds will just continue my circle of creativeness not a penny will be wasted.
