I work for myself out in the world and I like creating unique things. I've always have had a creative mind.

Working on these pieces helps me focus on something other than what's going on around me.

The thought process behind these pieces are of the things I love beyond these fences. "Hope", which is a prayer matt represents my belief that GOD will answer my prayers in times of need; "Memories" because music can take me back to happier days.

These are my favorite two that I want to share with others.
