Artist Name: ~~XXXXXXXXXXXX~~

name please

I've drawn on & off, for 15 plus years roughly. When I was 4, I was told it would get me nowhere in life. At 22, I suffered a hand injury that has left me with permanent loss of feeling in my right arm. (I predominantly use my right arm to draw, play guitar, as well as most things) Since the injury I gave up on drawing, playing instruments as well as most sports. After my incarceration, with nothing but time and my thoughts in prison, I've picked up on my skills thought to be long gone. I would like to be a tattoo artist, piercer, laser removal specialist & musician upon my release. Please enjoy & or feel free to purchase/photograph these works of art I have submitted, they mean a great deal to me. (As I never thought I could achieve what I've accomplished.) If you like my art/would like something personal, feel free to contact me via SPAY. Lastly, thank you for your time & support for us prisoners.
