Australian Ranch House

Australia Style Ranch House.
My creation is also a coin bank with
four (4) Drawers. I have fabricated
all wooden fixtures from craft sticks.
The windows are a shower bag; which I
have stitched to the cardboard frame.
The stones were collected over a 3 month
period/ the deck is ~~board~~ birch bark
covering. This is a coin opening on
the bottom so you can shake the
money out. I also do custom
work.

It's a good past time and keeps
me out of trouble.
