

Artist Name: Israel "Nito" Moron

My art work is created from real current people or situations in my current life or my passed.

The kind of art work I make is to show my story in good ways and bad. The art work is a way for me to vent, through emotions and real life feelings. I've lived a very rough life and still currently am but now I'm cruising towards my success, of being a free artist.

Trying to not only reach out to my "Cultura", my people! Los Mexicanos from both sides of La frontera! and all Latinos going through the simular struggles and hope they can feel me!

Pa mi Gente! Te amo mucho.

Israel Moron
