Spongeland

This is my first time participating in the PCAP art show. I began drawing on typing paper using a standard #2 pencil, mostly just to see if I could put what I imagined onto paper with accuracy. I then started working on shadows and perspective, and eventually moved to using color pencils and drawing paper. As I have done more pieces, I have seen improvement with each one, inspiring and motivating me to make more. I have done experimenting with pencil and color pencil on typing and drawing paper, water color on water color paper, and finally some acrylic on canvas. I look forward to growing in my confidence and abilities in order to showcase more variety at the next PCAP show.

Spongeland was created for me to win a game of "Who loves who more" between Rebecca, my girlfriend's ten-year-old daughter, and myself. I won!
