

Artist Name: "THE PENCILIST" Destrey McCoy

I truly love the feel of the pencil against the paper, the texture of the paper, the way the oil pencil glides across the paper. The way the Brush Cleaner I use breaks down the pigment of the oil Pencil so that I may paint the image. I love the detail in which this method provides.

I also like to incorporate other mediums into the picture, Pen, Pastels, ect.

I also love to teach what I have learned all these years, with thousands of hours spent at my desk creating. I have taught inmates in the past for about 5 yrs, and this was a challenge that I loved. I'm happy to share what I've learned. Trial, error, and frustration sometimes were keys to the advancement of my craft.

I hope you enjoy my artwork! For there is, literally, a small piece of myself in each and every work of Art.

And please, if you're a fan of my work, please write, feel free to share your feelings about my work so that it may provide some more purpose.

Sincerely,
Destrey McCoy
