

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Thomas Bobb

I have always enjoyed starting and finishing projects. Getting to look at a completed job. For years I installed ceramic tile and marble. I liked working in homes much more than in stores, restaurants or schools. The custom showers and back-splashes as well as intricate designs in floors were what I liked best. I guess that's what I like about artwork is the journey from start to finish. You can lose track of time and anxiety when doing art. My favorite part of doing art is if and when someone receives something I've done and they like it, I wish I could give much more to my loved ones and friends than my art. We have only so much time on this earth. Time is so precious and life even more so.
