*Just Us Our Sense of Lost*

I am a African american Artist that would like to show the world How A person man are Woman are not the sum of their past mistake are Bad Decision for which the Made.

I would like My Art to Reflect A examination of myself as Well Make the Viewer reexamination of who they are, through the use of color And textures of Art.

The purpose I do ART is to Design A Visual MATRIEX that cause people to slow down and reflect and enjoy the wonder of color, And show how men and women who are in prison have Value to society.

Perhaps more than anything to educate the Views to enjoy what ART is.
