

Artist Name: Dalton Hanners the starving artist

I came to prison with a good amount of time (7-15 yrs) under strange circumstances (A love triangle I wasn't aware of) I wasn't much of a criminal just young and dumb. I was much more interested in being a visionary. Singer-Songwriter Skateboarder MMA Fighter, Father and productive member of Society and help make the world a better place. So naturally when I came to prison I was very lonely and stressed out anxious depressed etc.. I thought I want to make the best of this time. So I put all my pain in my art. I am heavily inspired by Artists like BASQUIAT. I try to express myself and my thoughts or past, problems issues people in poverty face like addiction mental health etc. Any and all proceeds will go to a new hobby craft order so I can create new art with better and bigger materials. I would like to make some cereals necklaces etc for my daughter I would even love to get into crocheting so I can make her hats and stuffed animals and sippers etc I don't have much support. Me and my family came from poverty AS much as my joy this is my job and how I eat I could use any and all feedback, support, mentorship Support Local ART!! Thank you 😊
