

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: CATRACHO

As an artist i try to focus mainly on the details of my drawings, if i'm satisfied
with my work than i know others will be too. Art can be use for many purposes and
it's up to you how you wanna use it, people in general out there suffer from depression
and we can use the art to transmit happiness to those in need of a smile. I personally
draw because it gives me a peace of mind and plus i enjoy putting a smile to the person
my drawing is going to, once i get in into my favorite playlist i take myself on a journey
with my art and music. I use my art as an escape goth for a few hours i forget that
i am locked up. Drawing and writing is my passion, i strongly advice others out
there to use art as a form of education, a piece of art can bring a smile to
anyone who had a rough life or been having a rough moment. Who see a nice
drawing wont make you smile and see the world differently, look at yourself
for example; i know you smile when you see gods creation, after all we are all
gods creation. i hope you who ^{had} the chance to view my artwork are satisfied, please
enjoy my art and god bless you all. Sincerely Eimer Garcia Medina (El catracho)
