

Artist Name: THOMAS SELLS

"BLOOD MOON"

First I enjoy painting in pointism. The blood moon is one of my favorite things to look at in the night sky. The two apple trees are the ones that are in my grandparents back yard. This is the view I had when I returned to Michigan and was setting outside thinking and talking to my grandmother (she has been passed) I talk to her on the days when I'm depressed. Those two trees was paint in the same way the two trees set in her back yard of the house she grew up in and she raised my mother in and I visited every summer growing up. Those two apple trees was planted when my Great Grandparents had their first two children. Which is my Grandma and my Great Aunt. both have passed away. I was very depressed one day missing my grand mother and my brother (passed in 2003) and I looked up and that is the view I saw.

"THE COMMUNITY"

I painted this to show my belief in community. All communities have alltypes of people in it. It shows now LGBT, Black, White, Male and female should be living together in the world and be able to live side by side.
