

Artist Name: Unique Zeke

I started artwork around 6 years old, when I had just gotten the information that I had ADHD and Asperger's Autism! My grandma, Ewonne Ormsbee, got me started by teaching me how to paint! I started doing my artwork for this year's submissions in 2023, when I got bored and was looking for an interesting way to do artwork that was unique in its ways and its own quirks! Even though I have had family in my life, I have always felt as if I was an outcast growing up. But when I Ball or do other forms of art, I realized here's something unique that I can bring to everyone, not just run-of-the-mill everyday artwork, but something generic with a dash of ordinary mixed with a pinch of extraordinary! I want to show that someone who is a "Skeleton" can always find "Flesh" to fill out their Body & Mind! To everyone looking for your "Flesh", My name is Unique Zeke, an ordinary autistic person with artistic skill of unique possibilities!
