

Artist Name: Jay bird

Art gives me the opportunity to go anywhere. Much of my art is of faraway landscapes and Sea Scapes, rivers, waterfalls, and open skies. It is as if my mind goes to these places and I just paint or draw the location.

I enjoy writing and often will create art that goes with the story I am writing. One of the pieces I am submitting actually inspired a story. By chance the mountain appeared to have a mouth and eyes. I had not noticed this but someone pointed it out. I agreed and wrote monster mountain.

Drawing and painting people in my art is also something I enjoy.

I hope that others enjoy my art as much as I enjoy making it. That it takes them to open skies and warm beaches and mountain trails.
