

Artist Name:

(B)

I enjoy art very much. it is a relaxing thing to do that gives a feeling of purpose and when it turns out nice it makes you feel great. My first love is pencil but I am starting to work with pastels and I like them very much. I like nature more than anything but I try other things. one thing that I am working on is people but this is what I like to do, when I feel like the angry Griz. art calms me.
