Hello,

My style is pencil drawing, and shading. I try to have backgrounds in my pieces, which bring the theme out. I prefer sitting down on a calm day, listening to R+B music, while I draw. My best work are my drawings from my mind's memory. I am very passionate about my work. Knowing I can make something so beautiful. I'm learning patience, flaw noticing, repetition strengthening, and more. Every completion is an achievement. When there's possibility of desire, one must believe. And with effort things can be done. Knowing you can ^{do} feels great, and builds confidence. Completion is refreshing.

To a beautiful scene, in a world of its own.
