It's a 🎵 Chick-a-d-d-d, Barn in the U.S.A.

Welcome to the 25<sup>th</sup> annual Art Exhibition, Thank you all for your support and effort to put this show on. This year has been a struggle to complete any type of artwork. What I have done this year is; Barn in the USA and It is a 🎵 Chick-a-d-d-d. I experimented with adding color to my Ink work. It has allowed me to persue a different and challenging area of art. Stepping outside of my comfort zone I believed the drawings turned out well. With the results of these drawings it has given me a passion to begin adding water color into my Ink work. With a year of pratice with watercolor and ink, I can't wait to see how it will turn out. I hope you enjoy these drawings and that they bring you fond memories of years gone by. As I draw the drawings, I myself become lost in them. The memories of years gone by keep me looking forward to the great times ahead. I hope in the years to come that all our drawings bring you warm memories, beautiful smirks, and peace. Again thank You for attending and purchasing our artwork. With out you and the support of P.C.P.P. life would be ~~a little~~ ~~more~~ ~~broken~~ broken here. You all are a ray of sunshine.
