

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Robert D. Daniels

The Copper looking motorcycle is made of Cardboard, paper, Q-Tips and toothpicks, glue, paint.

The Crab Ship "Destinee" is made of Cardboard, Q-Tips, Hair Nets, Shower to Shower powder, glue, paint.

The Crab Ship was an idea of making something different and I wanted to try and make a ship out of Cardboard and not the regular wood sticks. My first try ~~with~~ making this ship came out better than initially thought.

My birth Father was blind and as a child I would watch him build mounds, cars, trucks, planes, boats. I was intrigued and it has become natural for me to build stuff and form into something.

R. Daniels
