

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Daniel Teribery (EL 050)

Creating Art puts me in a place most peaceful then anything I have ever felt. This year I wanted to express color and show the emotions in it. Especially the umbrella pieces. I see umbrellas as a form of protection from the elements. And the (I'm in love) express my joy of finding my truly love. And the umbrella symbolizes we will both be protected from any negative energy, and our love will always be safe. I love getting dangerous with combining color. I just pick a color that I'm emotionally feeling within or not the color, it's out of place. I hope to move people emotionally with my art.
