Hello ladies and gentlemen, my name is Autumn - mone't
and I have been drawing all my life. I started at a very
young age due to the fact that both my youngest brother
and my sister draw. I like to draw all kinds of things. Usually,
when I see something I like, I just pick up a drawing utensil
and draw it. I like to add my own kind of twist on it
so it doesn't look exactly like the original drawing. Some days
I feel more artistic than others. Since I've been incarcerated,
I don't draw like I used to, so when I draw I
take my time and it turns out really nice. I still love to
draw though it's just in me. I'll always draw and create
art as long as I live. It helps soothe me at times when
nothing else can and I'm grateful for the talent God has
blessed me with and thank you for taking your time to
read a little bit about me.
