

Artist Name: David King

The reason I called it the Knotty Cabin in putting it together was hard, everything was pre-fabricated one wall at a time, the floor and attic took 3 weeks and to come up with an opening roof, I had to think of something where I didn't have to use metal hinges. The wallpaper I had lying around and the fabric I used for the curtains was from an old plaid shirt. I just thought of stuff as I went along.
