

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Hovic

My art exploration would have never occurred without prison. Trying to find positive direction with my time became my lifestyle. My old life didn't allow for my creative pursuits. But since I have been incarcerated I have learned to play guitar, knit, crochet, garden, and draw. I have always had the utmost respect for artists who could put their imagination for all to see. So with the help of artists in this very room and others, I started my own journey in art. Even though I am still finding my niche, I feel this picture represents my own development and ~~the~~ the joy that comes with being proud of them.
