

Artist Name: Jeff Hoaglin

I'm so excited for this years PCAP. I'm so blessed to have been apart of this amazing program for so many years. This will be my last PCAP from the inside. I'm finally able to say I'll be home for the next show.

Creating art for me has been an escape to be able to pass away hours days weeks and make people smile with my finished projects. amazes me.

It all started tracing card patterns to make a few dollars with some encouragement I transitioned into a actual Artist My favorite things to draw are wildlife or images that depict my life.

I hope this is a step in the direction of a future in art. I Love everyone who makes this program a reality.

Thank you / God Bless
