

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Armstrong 437905

My first project The Revolving Doors of mental Health is
how I look upon my life I chose to make this about
me because for years I thought "nothings wrong with me" or
"I'm fine", "I'll just drink to fill the void" and not till
recently I chose to seek help for my mental state. my next
piece my restless mind is what I'm sure every prisoner
feels being in prison again another stab at the lack of
mental help within and leaving the MDOC, either way
each piece is a look upon my mind, or the revolving doors of
prison for mental health patients. This is my first art show
I chose to be productive, try something new to
try and feel positive.
