Thor's Ode to Frazetta, Bird in a Tree

IF I see A picture OR ARTIST who inspires me
I like to take AND try to use some part of
Their style and put my own twist on it. I
enjoy working with paints and seeing the new ways
to utilize them. I do a lot of things I consider
to be BAD ASS AND have a hard time keeping
interested in things that are not in that
category. I work with different temperature
and color theory to set my mood and also
stick with limited palette for most of my pieces
as I like the challenge of mixing colors using
color theory and get great satisfaction from
being able to accomplish a great range of colors
from a small selection. Thanks for taking
the time to look at my stuff and to
read this, it's a great honor! enjoy yourselves!
