

Artist Name: W. Mc Gill

I really enjoy creating the projects that I do, cause I truly hold dearly that I picked this talent up from my granddad.

I also know that being able to create something that gives other's joy as well as knowing that it was handcrafted and is one of a kind.

Where does my designs come from, well I come up with the designs from my mind, so then I'll start cutting out my pattern and I go from there, but most of the time I never finish how I started, cause all sometime change up in the middle of a project. But the bottom line is, I just love doing this sort of art and working with my hands. It makes me happy every time I finish a project.

And with that being said I wanna thank each one of you, for not only giving me a chance to share my talent/work with others. And also giving others that same chance to share their art work up through the LSA, university of Michigan.

Prison Creative Arts Project.

Thank You !!

Sincerely

William Shannon Mc Gill
