"A Picture Frozen in Time"

These are real flowers, weeds, butterfly and Bumble Bee's (All died from natural causes). I collected all of them over spring and summer. I dried all the flowers ~~and~~ then repainted and clear coated them. I found butterfly on ~~ground~~ ground with head bitten off so I repainted and clear coated. I paper machied a ice cream container and slowly built up to this creation I changed it many time not sure were I was going with it. when it snowed for the first time I decided I would do a winter type them. I hope you enjoy it I took alot of time out my life on this and ended up with this enjoy
