

Artist Name: Joe Baldwin

I've only been painting a couple years and feel I'm definitely a beginner but learning as I go. I've been inspired by Bob Ross and others. I'm currently using art materials of lower quality and want to upgrade to better supplies but I need the money from these sales to do so. If you like my work, I know I can do even better with better paint etc. also you could request my info and you could ask for a specific type or category of a painting next year. I love fantasy art but hesitate to put one in because I don't know how much demand a piece like that would have and would lose the piece if it didn't sell. I really wish I would have put time in as an artist throughout my life but it seems I only did art a little as a kid and then not at all as an adult unless I was locked up.
