

Artist Name: _____

Sanchez

Every year I do this I always think what can I say that I haven't before, Art is a lifestyle, to be an artist you have to see things in an artistic way, for me, my art has saved my life in many ways, its helped me survive, express my thoughts, and have something personal to share with my loved ones. For me art is life, and I dream of a day when im home and can share my art with the whole world, and meet like minded individuals that see things as I do, in vibrant colors, and crazy cartoons, and all the wildest things that challenge reality. Most of all I hope my art helps others feel the same way, because when you make art a lifestyle, you know your inspiring others to do the same thing, and that makes the world a little better place in my eyes.
