Michigan Wolverines

I make these with items most would never think about! With my art projects I re-use recycled materials such as - pop tart boxes, oatmeal cream pie boxes, glue and baby powder to make tires, items like notepads (of paper cardboard), cable cord, headphones for break lines and gear shift cables, Q-tips, paper rolled up, paint and wax floor sealer for shine. Bread ties, we are very limited to the items and materials we can get ahold of, as for my choice of University of Michigan and State. I am a huge football fan and love to show off the State of Michigan pride. This art project gives me something to look forward to and have reasons to keep focused to the end game of making it home to my family!
