*Those That Hope See Light*

This is third year of participation with this program and every year I try to improve my projects. This year I chose to not only draw a giraffe but also try again with my painting abilities.

My love of giraffes inspired me, for a second year, to draw how every detail makes them who they are. Much like us ~~giraffes~~ giraffes are all very different and every line and spot represents this.

Next my mother's love of painting gave me this idea I created. Living up North all my life, I've seen lots of lighthouses meant to guide ships. This is much like our lives that we need guidance on as well.

With these ideas I hope inspire you as they have me and enjoy.
