Never Forgotten

My artwork is derived out of isolation going all the way back to 4 years old when I was run over by a car and confined to a wheelchair for about 3 years. I started drawing anything in my view with simply a #2 pencil and paper.

Now being locked up for nearly 20 years I have been occupying my time with many different mediums of artwork.

I am coming up on being released and will be selling many pieces I have done over the years in order to get back on my feet financially.

I plan on continuing my artwork and sharing it with the world and making a little extra money as well.

Thank You
G.S.
