Beautiful Contemplation

this is my first year sending in a piece of Art. I have been incarcerated for four years now, and I draw and write alot. This is my first pastel chalk piece I've ever done. I named it Beautiful Contemplation, because I love to capture the look of someone discovering something new within themselves, or within the world. And I expecially love it when its a beautiful woman. I also have written a thesis on the opioid epidemic, and the failed Rehabilitation process of the System. I am a very artistic and driven person if your looking to chat or get a drawing done. Please write, thanks
