

Artist Name: Jason

when I began to crochet I did it as a way to pass time and give back to the community that I had wronged. when I made my art for the show I was inspired by the Smurfs a show my daughters love and I couldn't help but want to create something I thought people ~~am~~ would feel a connection with since Smurfs span generations. I thought of my art as toys something my kids would want to play with and make them happy my hope is that these Smurf inspired toys bring joy to someone.
