"LONG LIVE LINDA LOU"

Growing up I was always told, theres no greater love than that between a Mother & child. More so, between a Mother & Son. My Mother, was the greatest person, & strongest Women I've ever been privileged to personally know! I am NOT artistically able to always draw, paint, sketch, ETC. I am musically influenced, & have severely poured my heart into my music over the years. I've written many songs over the years for, involving, & relating to My Mother. But w/advice, help & encouragement from my buddy, my tattoo guy(101) & a "Draw Real People" help book, I decided to take my artistic ability to the next level. Unfortunately, due to un-foreseen life situations, I was not able to fully complete the picture like I had envisioned. But, isnt that art, all in itself! I am unwilling to sell this portrait @ this time, but will be more then prepared, my 2<sup>ND</sup> year around. The final act for this project, will be inducing it into my skin! Thank you all very much for your time & consideration, & I look forward to producing properly, the next time around! Before I go, please remember; "Long Live Linda Lou" 4L's, for Life!
