

Austin Clouse

689-20

Potpourri Swan

I started doing Origami and crocheting to have something to bond with my daughter over other than fishing or welding. I just want to be able to teach her all the skills I can. I doubt that she will say Dad will you teach me to weld or, how to fix cars. I plan on leaving here with skills she may enjoy to learn and have her self. People in here call me the Mat Hatter because I crocheted²⁴ Hats to donate in two months. Every hat was made ~~a~~ different for different people.
