

Artist Statement: 26th Annual Exhibition of Art by Michigan Prisoners

Artist Name: _____

I have enjoyed drawing for as long as I can remember. However, I did not start drawing people until 2016. I have zero formal art training or education, but from what I have heard, my art is an attempt at hyper- or at least photo-realism. My focus in all my drawings is to make them look as real as possible; to make them look as if they could come right off the page. I view every drawing as a challenge, and that is how I choose the subjects of my art.
