

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Angel

To me, not only is Art an expression of yourself it's also a therapeutic escape for me. It helps to distract me from prison life the anarchy the violence the insanity of our day to day life to me every time I create a piece it's like a silk dove is pulled from the ashes and even though I have only recently started drawing I love it I love the feeling I get when I finish a piece, the proud pride feeling of "I created this" I will continue to evolve and better my abilities Thank you for this opportunity to show my work and if there is anyway to hear criticism or advice please contact me.
