

Artist Name: Timothy Sherfield

Creating & learning art in Prison has helped me so much emotionally and mentally. Art helps me pass the time and has given me the opportunity to connect with people on a different level. I'm hoping to start and run a business when I'm released that is art based, creating and selling paintings and crafts. I would like my art to help me connect with my kids and give me a chance to show my children I am capable of doing something in my life other than breaking the law. Thank you for looking at my drawings and hope you like them.
