

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Two Fingers

Two fingers simply means peace. I've always said that since I was a kid, and told everyone peace instead of saying bye. So my name came from my friends always asking why do I say and touch their kids with the two fingers leaning over and look them in the eyes saying peace now my whole family do it and it's wonderful. (Look) someone in the eyes let's them know that you are sincere, mean what you say, and that you are paying attention to what's being said. In an oral Prince Park there was so much untold ^{about him and his music} so just one look into his vault (Just 1 look) now say no ~~more~~ ^{more!}!

Peace & love 2 fingers
