

Artist Name: Faimes Semaphore

Faimes Semaphore is a theme name that I created after my experience seeing two UFOs at Macomb Correctional facility in drawing # 4. The name is an acronym and it's spelled the same way backwards; meaning, found, aliens, made, earth, sun, Supernatural, extraterrestrial, made, all, formation. Every since then I've been feeling like somethings guiding me in this direction to create art, and write books, which I've completed 3 short stories and so many collections using my artistic name I feel so in love with.

My mechanical device is a robot that I named Faimes Semaphore as well. It projects the things I can see in nature that some or most people can't identify. I believe using my 2 unnamed specific tools will work in the future. Every piece of art work that I completed has an X amount of different things, animals, creatures that appear, mostly dogs because I believe I am the most loyal being ever and a gift from God.
