

Artist Statement: 26th Annual Exhibition of Art by Michigan Prisoners

Artist Name: Whitney Kolich

Art was always my greatest passion as long as I can remember with my biggest fan being, and having encouraging love from, my grandma Clara Jean.

Over the years, eyes became the center of my art. The eyes reveal the soul, give us color to our world around us along with letting us see love, sadness, and all the other emotions we hold

This piece shows the colors and beauty that represent a positive future that can still be seen even in the hardship of a soul that has lost her way.
