I choose to create origami works to help my mind not relax but to refocus my thoughts and actions. The modular cube took 16 different pieces of paper and about 3 hours to complete and the modular starburst was 30 pieces folded then assembled in total of about 32 hours. The color choices for the cube are more geared for Halloween and the starburst is more for spring but all are blending colors. I hope people can understand the time and skill level as well as the beauty of each piece.
