Mexican Heritage, Guerrero

1st This Drawing represents
Mexican heritage Month.

2nd "Guerrera"

This drawing is a representation of what I believe a woman worth is. The female is a warrior and always prevails through the hard times. Being in prison we depend a lot on our "warriors" out there taking care of the children, the home & family as well as us. Everyone thinks the man is the "alpha", the saying holds true... "Behind every successful man is a strong woman."
