

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: "THE PENCILIST"

I am glad you have chose to read my statement, and look at my artwork, thank you. I have been doing this now 18 years here with P.C.A.P., and I look forward to it each and every year.

I love animals, nature, and the outdoors. So I choose these types of subjects mostly when creating. I get lost in my work and can honestly say there is a small part of me in each and every work I complete. Artwork provides me a sense of freedom and I work hours each day. I try to Recreate the small details and give much thought during the process. I love all colors, but I suppose I love earth tones the most. Feel free to write me if you like. Maybe I could do a personal work of art for you.

Sincerely,
